How do I cite a quote?

1. Insert the in-text citation in your Word document.
2. Highlight it.
3. Look to the left of the EndNote toolbar in Word and click on ‘Edit and Manage Citations’.
4. At the pop-up window look at the lower pane and at the Suffix line enter a comma, space and page number e.g. “, p.29” but don’t use the quotes.
5. Click on the ‘OK’ button.

This quoting style is the one used in the APA 6th ed.
