Welcome to the Rehabilitation Update. This is a fortnightly bulletin covering all aspects and types of rehabilitation. I welcome suggestions for content and topics to provide articles on. I'd also be happy to prepare special 'focus' issues if a topic generates enough interest. Please email me with your suggestions and feedback at ann.drummond@svha.org.au

[Link to full text]

Link between Parkinson disease and rapid eye movement sleep behavior disorder with dream enactment: Possible implications for early rehabilitation. Johnson BP, Westlake KP. Archives of Physical Medicine & Rehabilitation, 2018, 99(2):411-415. [Link to full text]

Two weeks of additional standing balance circuit classes during inpatient rehabilitation are cost saving and effective: An economic evaluation. Treacy D, Howard K, Hayes A et al. J Physiother, 2018, 64(1):41-47. [Link to full text]

This update provides links to articles that the library has a subscription for. This means that some articles which may be of interest to staff working in the rehabilitation area, are overlooked as I cannot provide electronic access. In the future when I see a relevant article I will include it in the update in this special section and the individual can determine whether it is important enough to warrant an interlibrary loan. Below is a link to the e-form for you.

### Spotlight on Health

**World ........ Day/Week**

Days (or week) set aside to create awareness of special health issues. Links to relevant websites where more information can be found are provided.

#### February 2018
